Muhammad Bilal

Software Engineer

bilalamjad706@gmail.com · Gujranwala, Punjab, Pakistan

PROFILE

Software engineer with 2+ years of hands-on project experience across mobile, web and computer-vision development. Built four end-to-end products spanning Flutter, the MERN stack, and Python. Experienced in designing and building cross-platform mobile and web applications, from front-end interfaces to backend architecture. Skilled in structuring scalable data models, implementing secure authentication systems, and delivering responsive, user friendly UIs across mobile and web platforms.

PROJECT EXPERIENCE

TaskPoint — Founder & Developer 2025 – 2026

Flutter, Dart, Firebase, Firestore · Personal / final-year project

— Bilingual two-sided marketplace connecting service seekers with local workers.

— Mobile app plus a Flutter Web admin panel, 13-collection Firestore model.

Face-Recognition Attendance System — Developer 2024

Python, OpenCV, Pandas · Personal project

— Web-based face detection and matching system with CSV export via Pandas.

E-Commerce Platform — Full-Stack Developer 2024

React, Node.js, Express, MongoDB, Stripe · Personal project

— MERN storefront with Stripe checkout and an admin sales/inventory dashboard.

EDUCATION

BS (Hons) Computer Science
University of Central Punjab (2022-2026)

FSC Pre-Engineering
Punjab Group of Colleges (2020-2022)

Matriculation
Pace School System (2018-2020)

SKILLS

Mobile — Flutter, Dart, Kotlin, Jetpack Compose

Web — React, Node.js, Express, Tailwind CSS

Data / Vision — Python, OpenCV, Pandas

Backend & Cloud — Firebase, Firestore, MongoDB, Google Cloud

Tools — Git, GitHub, Figma, Postman, VS Code

Office & Design — Microsoft Office, Google Workspace, Canva, Adobe

LANGUAGES

Urdu — Native

English — Full working proficiency
